

# MORNING APPEAL

Official Paper of Ormsby County.

FRIDAY.....JULY 21

## Card from Dr. Guinan.

"The School Trustees seem determined to waste \$12,000 in repairing the old shell of a school house."—Morning News July 20.

"A heavy taxpayer of Carson yesterday resented the repairing of the school house in a forcible way. Somebody suffered from a heavy blow, from the aforesaid taxpayer's fist."—Same paper.

In view of the fact that the above mentioned paper is edited by a woman, it is unpleasant for me to say anything of a disparaging nature in reply.

As there are a few, however, who read that paper and might be misled by what they see in it, it seems very proper that the items quoted should receive a reply.

When the school house is repaired according to plans and specifications, it will virtually be a new school house, and a better and prettier one than could be constructed for \$20,000.

In all probability Prof. Howe knows as much about a school house, as all of the carping critics in Carson combined, who are ignorantly or dishonestly trying to make the taxpayers think that \$12,000 of their money is about to be squandered.

He said that the building will be a commodious, well planned and beautiful structure.

In regard to the second item, I will say from its wording, I infer that the News approves of "the heavy blow from the heavy fist."

I know nothing of the particulars of the affair except that I heard that one of the school trustees was struck yesterday; and if I can place any dependence in the News, it was because the trustees are, in compliance with the law, about to have the school house repaired.

I want it distinctly understood, that if the trustees are deserving such treatment, I wish to shoulder the whole blame.

It is altogether probable that the News stands alone as an approver of the inflicted blow.

However, should I be mistaken in such an hypothesis, be it distinctly understood, that I appoint myself, as a committee, with whom all such disaffected and heavy taxpayers, are respectfully requested to transact their business.

J. GUINAN.

## The Bimetallic Convention.

State of Nevada,  
Executive Department.  
Carson, July 20, 1893.

Having received no official notice of the meeting of the National Bimetallic League, or the Silver Convention, to be held at Chicago, Ill., on August 1st, 1893, I am not informed as to the number of delegates accorded our State, or the manner of their selection.

Therefore, as the time is very short and the matter one of great importance, I hereby request that the people of the several counties of the State send a list of names of such of their citizens as will attend said convention, at their own expense, and I will be pleased to commission them. In the meantime I will publish any official communications I may receive regarding this matter, for the information of all concerned. Respectfully,

R. K. COLCORD,  
Governor.

The Heath-McWhirter murder case has gone to the jury.

Chris Evans' trial begins in Fresno on the 24. Woodburn and McGowan have been retained by him for the defense.

Wm. Woodburn has been appointed by Judge Rising to defend Fred Gray, who killed Adam Dixon in Genoa on the Fourth.

Frank Bletcher is now the agent for the best bicycles in Carson. He has a large stock of the latest models. Opposite.

## THE LAKE.

It Is Enjoying an Unusual Good Season.

It was held that the World's Fair would take a good many people away from the lake this season. But the guessers were all wrong. Business has been very brisk and the attendance large. The explanation is that a good many people who are on their way to the Fair from San Francisco go to the lake first and get a good rest, so as to lighten the fatigue of a trip East.

Others who don't expect to attend the Fair until Fall concluded to go to the Lake in the heat of Summer as their fashionable neighbors are all away. The Lake has grown more popular every year, and this year all the resorts are overflowing with guests.

### THE TALLAC HOUSE.

This splendid first-class hotel, M. Lawrence & Co. lessees, is charmingly situated on the bank of Lake Tahoe and has excellent accommodations for a large number of guests. The grand scenery that surrounds it, its magnificent, well kept grounds and the perfect system that governs all its affairs, combine to render the Tallac one of the most desirable resorts in the State. Guests may go to the Tallac House from San Francisco on a round-trip ticket good for seven days' board, and good until November 1st, for \$32.50.

### THE GRAND CENTRAL HOTEL.

The Grand Central Hotel has a similar arrangement by which guests may purchase round-trip tickets from S. F., including seven days' board at the hotel for \$27—cheap enough considering the excellent character of the entertainment afforded under the experienced and capable management of A. J. Bayley, the proprietor of the hotel. Regular rates for board are \$5 to \$25.00 per day, or \$12 to \$16 per week.

### MCKINNEY'S.

This house, kept by Murphy Brothers, the proprietors, favorably known for their unremitting attention to the comfort of guests—is a spacious, comfortable and intelligently conducted hotel. The terms are very reasonable. There is excellent trout fishing and hunting conveniently near to the hotel. Stages leave daily for Rubicon Springs. The hotel is in one of the prettiest locations on the lake.

### THE BELLEVUE.

(Sunbeam Postoffice), J. Colwell proprietor, is first class in every respect, with ample accommodations for a large number of guests. A magnificent new piano has recently been placed in it, and Mrs. Colwell entertains her guests with excellently rendered vocal and instrumental music. There are a number of cozy cottages, well furnished; rowboats for the use of guests, free, and a handsome pleasure launch is kept in readiness to convey guests to any part of the lake. The rates are from \$12 to \$15 per week, or to \$2 to \$2.50 per day.

### ALL SORTS.

Mrs. J. P. Meder is dangerously ill.

Work has livened up at the car shops.

The river mills will start up in a few days on tailings.

St. Peter's Guild will give a party at Armory Hall, Friday evening, July 21, 1893. Admission 50 cents, refreshments 25 cents. jy18td

Rev. C. L. Logan is up from Inyo county. The suit of the Inyo Academy against some delinquent stockholders comes on shortly and Mr. Logan is looking after the case.

The Eastern press is reminded that violent abuse of Western and Southern people as "cranks, anarchists and incendiaries," is not argument. The people of the West can stand it.

Dr. Whitell of San Francisco died quite suddenly at Lake Tahoe last Monday. He had only been at the Lake a couple of days, having gone there for the benefit of his health. The body was brought to Truckee that afternoon and shipped to the city for burial.

The athletic entertainment at the Armory Saturday night will give the ladies a chance to witness what will appear to be a regular glove contest, but which will merely be a friendly and easy bout between good friends, who wouldn't hurt each other for anything. There will also be wrestling, tumbling, bar work, etc., and a dance after the performance. Gents 50 cents, ladies and children 25 cts.

## A TALK WITH BILL CRISLER.

He Gives His Reasons for Being Beautiful.

"Yes I am beautiful" said Mr. William Crisler yesterday to an APPEAL man.

"As a baby my folks considered me plain, but when about 8 years old I began to grow on 'em.

"My beauty ain't just the kind that strikes a man on the Realto; you have to study me a spell to realize just how handsome I am. Even the children on the street stop and holler. 'Oh you beautiful creature' as I walk by. You see its my figure that makes the solid charm of my loveliness.

"Take me from any view you please and I am there.

"I see Lyman Frisby had his picture in the APPEAL yesterday. Well it made me smile.

"Now if you want something that will make every woman in town rush to buy the paper, here's a little gem you might publish.

"No, I don't propose to pay a cent; the increased sales will make you a handsome thing out of it.

"I was really considerin' the advisability of chargin' you what it cost to get the picture taken. It will add materially to the looks of the old sheet to have a good cut of me in."

The cut is accordingly produced to give our foreign members a clear idea of Bill Crisler's figure.

Following is the vote:

## BEAUTY CONTEST.

NAME:

### Moonlight Picnic.

Messrs. Ambrose and Wiggins have decided to give the first picnic of the season at Cook's ranch on Wednesday evening, July 26.

A free bus will be run to and from the grounds, bus to leave the Ormsby House at 7:30 p. m. sharp.

Good boating on the pond. Fine swinging in the trees. A prize will be given for the best waltzing.

Refreshments can be had on the grounds. The best music has been engaged. Dancing will commence at 8:30. Ample stable room for the people coming in private conveyances. Admission to grounds, gents \$1, ladies free.

jy20.

WANTED—A position as house-keeper and cook, city or country. For particulars inquire at Tennant's.

## MINING ECONOMY.

A Big Reduction on the Comstock.

It has been hinted for some time past that there was to be a general reduction on the Comstock, not only of the salaries of the Superintendents and officers, but that the miners have agreed to a \$3 a day rate.

There will be a very material scaling down in the salaries of all officials, from the highest to the lowest, and also in the cost of transportation, supplies of all kinds, the milling of ores and lastly the wages of the miners. Those who are in charge of the movement say that unless the reductions contemplated are made the Comstock mines must soon close, for with silver quoted at such a heavy discount, and with most of the mines unproductive and searching for new bodies of ore, it will be impossible to collect assessments upon stocks which have receded in the average to prices which equal the amount of the assessments asked for and in some cases exceed it.

The Daily Report says: There are in the Comstock lode millions of tons of low grade ores, which at reduced expenses can be made available, and can be worked at a profit.

Much of this low grade ore assays high in gold, so that the heavy discount in silver does not much affect it, provided that expenses can be reduced to a point where it can be profitably mined.

Such ores abound in vast quantities in the Consolidated California and Virginia, Savage, Hale & Norcross, Chollar, Potosi, Yellow Jacket Consolidated Imperial, Crown Point, Belcher, Overman and Justice mines and are to be had in lesser amounts in many of the other mines.

The reduction in general expenses now contemplated will amount in the aggregate to between \$50,000 and \$75,000 per month along the Comstock.

Even with silver below its present quoted value the leading productive mines cannot only live, but be made to yield a profit with expenses so reduced.

This, as already stated, is largely owing to the high percentage of gold in Comstock ores, amounting in some cases to 75 per cent.

The agreement which the salaried officials of the Comstock in this city have signed will be sent to Virginia City to-night. The other reductions are expected to follow. Some of them have already been arranged.

Regarding the Miners' Union, a well-known Comstock Superintendent who arrived here yesterday, said to a D. R. reporter this morning: "The boys have talked this matter over for a long time and thoroughly understand it. I believe the union, realizing the situation and seeing how all the other interests are giving way, will voluntarily submit to a reduction in miners' wages, which are now \$4 per day, the same as they were in the palmiest days of the Comstock. There are now only 325 miners at work on the Comstock, and those who have left it have found it hard to get employment at \$2 and \$2.50 per day. In the whole State of Nevada only 650 miners are now employed and only 500 of those are drawing pay. If expenses are reduced 1,000 men will be put to work in the Comstock mines at \$3 per day each, thus making good profits for several of the companies and increasing the chances for striking new bodies of ore.

The San Francisco Post says: Nearly all the officers of the different companies in this city operating at Virginia City, have signed an agreement to scale their salaries 25 per cent. The balance of the officers will sign today. The document will be transmitted forthwith to Virginia city for presentation to the railroad, wood and waiter companies and Miners' Union.

All of these organizations will be asked to make a similar reduction in expenses and wages. At the foot of the agreement is a memorandum to the effect that if the concession is not granted the companies will be closed down immediately.

### True.

"We look before and after,  
And sigh for what is not.  
Our sincerest laughter  
With some pain is fraught.  
Our sweetest songs are those  
That tell of saddest thought."  
This applies to the new songs—just received from publishers—at Cagwin & Noteware's.
